

# Technology

## PARENT CONVO GUIDE: ELEMENTARY EDITION

They might not have asked yet, but kids want to know when they'll be able to get their own phone, have their own social media profiles, and interact with friends online. Start the conversation about technology now, and begin setting clear guidelines. Kids know they can get their license at sixteen, which gives them something to look forward to. Set expectations about when they can get their 'technology license' too. Technology can be a positive experience as long as parents stay informed and involved.. Remember your role in the elementary phase is to help them...

So they will...  
**UNDERSTAND CORE  
VALUES & BUILD ONLINE  
SKILLS**

This guide is designed to help you meet children where they are now, giving you some words to say and not to say as you navigate the critical issue of faith. As the conversation progresses through the phases, always keep this end goal in mind:

### **TECHNOLOGICAL RESPONSIBILITY**

Leveraging the potential of online experiences to enhance my offline community and success
